DETAILED ACTION

Claims 1-26 are pending and examined.

Claim Rejections - 35 USC § 112

Claims 11-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

No antecedent basis is seen in claims 11, 12, 16, 17 and 24-26 for the recitations in the last line "in reducing blood glucose levels

In view of the amendments to the claims the earlier rejections under 35 USC 112, paragraphs one and two are withdrawn and Applicant's arguments are moot.

Claim Rejections - 35 USC § 103

Claims 10 and 25 are again rejected under 35 U.S.C. 103(a) as being unpatentable over 5,635,535, (Wagstaff) for the reasons given in the Paper of November 12, 2004.

Claims 1-26 are again rejected under 35 U.S.C. 103(a) as being unpatentable over Anderson and Maebashi et al for the reasons given in the Paper of November 12, 2004.

Applicant's arguments and the Declaration under 37 CFR 1.132 by Mr. Komorowski, each submitted April 8, 2005, have been carefully considered but are not persuasive. It is not seen where in Exhibit C there is data for the glucose uptake of biotin alone. Additionally, it is not understood why there is data for CP combined with

ALA, Arg, Se and Resv. It is also noted that in the title for Figure 1, "uptake" appears to be incorrectly spelled as "update."

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-26 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-10 of U.S. Patent No. 5,789,401 for the reasons given in the Paper of November 12, 2004.

Applicant's intent to submit a terminal disclaimer is noted, but it was not received in the submission of April 8, 2005.

Information Disclosure Statement

Reference 5, "Examination Report..." in the IDS of April 21, 2005 was not considered since it is not a proper citation.

Action Is Final

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1614

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
